**Narosa Publishing House**

New Delhi   Chennai   Mumbai   Kolkata

## Contents

1. **Mathematical Modelling and Ecology** 1  
*Prasanta Kumar Ghosh*
2. **Stability Analysis of a Dynamical System** 11  
*Debmalyayan Khatua and Kalipada Maity*
3. **An Overview on Stability Analysis of a Nonlinear System and its Application in Prey-Predator Model** 35  
*Shyamal Kumar Mondal*
4. **Mathematical Analysis of an SIR Epidemic Model with Saturated Treatment Function** 53  
*Sugam Kumar Nandi, Soovoojeet Jana and Tapas Kumar Kar*
5. **Study of a Reaction-Diffusion Eco-Epidemiological Model Under the Influence of Non-Local Delay** 67  
*S. Chaudhuri, Nandadulal Bairagi and Joydev Chattopadhyay*
6. **A Combined Project of Fish, Broiler and Ducks: Dynamical System with Interval Biological Parameters** 83  
*Anugam De, Kalipada Maity and Manoranjan Maiti*
7. **Dynamical Behavior of a Tuberculosis Epidemic Model and the Influence of Backward Bifurcation** 101  
*Tapas Kumar Kar*

8. **The Dynamics of a Cholera Epidemic Model with Some Control Parameters** 109  
*Prabir Panja, Shyamal Kumar Mondal and Joydev Chattopadhyay*
9. **Bio-Economic Prey-Predator Model with Reserve in Prey** 127  
*Biswajit Mondal*
10. **Behavior of Distributed Delay in an SIR Model Where Medical Resource Supplied** 141  
*Prasanta Kumar Mondal and Tapan Kumar Kar*
11. **Comparative Analysis of Popular Tools Used for miRNA Target Prediction** 149  
*Shibsankar Das*
12. **Modelling of Ecosystem Using Graph Theory** 157  
*Madhumangal Pal*
13. **Review on Optimal Control Problems for Bio-Mathematics in Uncertain Environments** 165  
*Jotindra Nath Roul, Samarjit Kar, Uttam Kumar Bera and Manoranjan Maiti*
